SURGICAL AND NON-SURGICAL TREATMENT OF VARIOUS PATHOLOGIES OF THE FOOT AND ANKLE

CECH MISSION STATEMENT

TPMA is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. TPMA has approved this activity for a maximum of 25 continuing education contact hours. The 2024 TPMA Southwest Foot and Ankle Conference is intended for licensed podiatric physicians and their assistants to develop and improve the podiatric knowledge and competency to better serve the citizens of Texas and the surrounding states. Throughout the program, the above-mentioned target participants will learn about various foot and ankle pathologies and their evidence-based treatment option via lectures, case discussion, hands-on workshop, poster and manuscript presentation formats. Safety, efficacy, cost effectiveness and quality improvements of multiple aspects of clinical podiatric management will be discussed. Program, schedule, and CE contact hours are subject to change without notice. Speakers and sponsors are required to disclose significant financial relationships and provide disclosure and written agreements to TPMA per CPME 720 guidelines.

DPM PROGRAM OBJECTIVES

After attending this conference, the participants will be able to:

1. Understand the community standards in treating various foot and ankle pathologies.
2. Learn the latest technologies and techniques to treat various foot and ankle pathologies.
3. Review materials that are essential in treating patients with the standard of care in foot and ankle .

ASSISTANT PROGRAM OBJECTIVES

The Texas Podiatric Medical Association is pleased to present the Podiatric Medical Assistant Track at the 2024 Southwest Foot & Ankle Conference. The program offers educational sessions for front office personnel, back office personnel and office managers. This high value, intense two-day program allows participants to learn techniques on increasing practice revenue, streamlining office processes, improving office communication and improving patient satisfaction in their practices. The program is designed to allow participants to exchange information in a relaxed but stimulating group setting and network with other participants from podiatric practices from around the states. Many of the sessions will be informal round table discussions to allow brainstorming/sharing of ideas and some will include hands-on demonstrations.
