SURGICAL AND NON-SURGICAL TREATMENT OF VARIOUS PATHOLOGIES OF THE FOOT AND ANKLE

CECH Mission Statements

TPMA is CPME accredited by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. TPMA has approved this activity for a maximum of 25 continuing education contact hours. The 2026 TPMA Southwest Foot and Ankle Conference is intended for licensed podiatric physicians and their assistants to develop and improve the podiatric knowledge and competency to better serve the citizens of Texas and the surrounding states. Throughout the program, the above-mentioned target participants will learn about various foot and ankle pathologies and their evidence-based treatment option via lectures, case discussion, hands-on workshop, poster and manuscript presentation formats. Safety, efficacy, cost effectiveness and quality improvements of multiple aspects of clinical podiatric management will be discussed. Program, schedule, and CE contact hours are subject to change without notice. Speakers and sponsors are required to disclose significant financial relationships and provided are closure and written agreements to TPMA per CPME 720 guidelines.

DPM Program Objectives

After attending this conference, the participants will be able to:

1. Understand the community standards in treating various foot and ankle pathologies.
2. Learn the latest technologies and techniques to treat various foot and ankle pathologies.
3. Review materials that are essential in treating patients with the standard of care in foot and ankle.

CECH Scanning

TPMA utilizes a scanner system to provide accurate and verifiable attendance at TPMA sponsored CECH activities. Attendees must be present at designated scan times in order to receive CECH, no proxy allowed. Attendees who miss scan times WILL NOT receive continuing education credit for the designated time block. Early scan outs will result in abbreviated CECH credit. A verification of attendance certificate will be emailed to attendees after the conference.

Assistants Track

NEW! Hybrid Podiatric Assistant Education Program at the Southwest Foot & Ankle Conference. This year, the TPMA Southwest Foot & Ankle Conference is launching an exciting Hybrid Podiatric Assistant Education Program designed specifically for podiatric assistants, office managers, and practice staff. For one registration fee, participants receive access to both self-paced online courses and an engaging Friday-only, in-person educational program. The online and in-person content is intentionally different, allowing participants to build a strong foundation online and then expand their knowledge through interactive, hands-on learning during the conference. We're also excited to welcome several new speakers who will bring fresh perspectives, expanded expertise, and dynamic educational experiences to this year's program. The online courses can be completed anytime and cover essential topics. The Friday in-person program focuses on practical skills and real-world application through interactive sessions on patient communication, wound care, artificial intelligence in healthcare, practice efficiency, team accountability, ethics, and hands-on clinical techniques that participants can immediately implement in their practices. Whether you're a physician investing in your team's professional development or a podiatric assistant looking to strengthen your clinical knowledge and confidence, the Hybrid Podiatric Assistant Education Program offers exceptional value, flexible learning, and practical education, all included with your conference registration.
